I CALL attention to the notice of the Peorla Insurance Company from the Chicago Daily Press and Tribune, which notice was voluntary on the part of the editors, who know what they say to be true. Such evidence must put to blush the petly malice aimed at the Peorla Insurance Company by some malicious slanderers of our city. The Company has a paid capital of \$50,000, and a sarpius of \$52,000. This surely is a sufficient gnaranty to all who will insure. Its business is very large and reliable. Beference to the only loss in Louisville for the last 12 months in the card of Wm. Musselman. The Problem Marine and Fire Inserance Compart.—It is with pride and pleasure that we ask the attention of our readers to the statement of this company in our rolumns this morning. It is the first detailed exhibit of the condition of any home company that we have ever seen, and compares most favorably with the statements of the best Fastern companies. Such an array of assets, amounting in all to \$850,356 24, shows most conclusively that we have a company in our own State, as sound and as well managed as any other, no matter where located. As it regards its promptness and liberality in the settlement of its losses, no company has a better reputation. The Peoria Company is doing business in most of the Western and Southern States, including Wisconsin, Michigan, Indiana, Missouri and Kentucky, where it is obliged to file an annual statement of its condition and to comply with the same laws that are required of all Eastern compandes. The fact that the company can comply with the laws of those States, which are reparded as very onerous by many companies, shows that it has the necessary capital, and as available assets as any other company, being subjected to the same provisions.

The Officers and Directors of this company are men of

The Officers and Directors of this company are men of The Officers and Directors of this company are men of tried experience and unblemished integrity, and the success of the company proves that they have the requisite ability to manage the affairs of such an institution. One pesuliar feature in this company, which places its stability and permanency beyond a doubt, is, that by provision of its charter, if by any means the capital of \$300,000 should become impaired a single dollar, and should any policy be issued thereafter, the Directors render themselves personally liable for any loss that may occur — As the Directors would not care to incur such a responsibility, and even if they did, as their aggregate wealth is quite large, the policy holders have an extra protection and safety by this provision of the Charter, which exists in but few if in any other company. Under the excellent supervision of J. Augustas Wright, its efficient and enterprising agent in this city, the company bas done a large and very prosperous business the past season, and we trust and believe it will be still increased

LOUISVILLE PRIVATE MEDICAL DISPENSARY,

DR. GATES CAN BE consulted at his office—the one formerly occupied by Dr. King— where he would call the atten-

During my residence in this city I have met with numerous cases in which the suffering have unfortunately placed themselves under the charge of those who are ignorant of the first principles of medicine, and whom it has been only by the utmost care and attention I have been enabled to cure. To all such as have been suffering under unsuccessful treatment, I would offer my services, guaranteeing that I can do all that Is possible for experience and a thorough knowledge of diseases in all stages and forms to accomplish.

Terrible Steamboat Disaster-Dreadful Loss of Life. It will be seen by a dispatch in another column that the steamer Princess, plying between Vicksourg and New Orleans, exploded her boilers and burned on Sunday morning. She had four hundred passengers, of whom two numbers are reported killed and missing. This is a frightful loss of life. The Princess was one of the finest steamers on the Western waters. For particulars see the telegraph columns.

The Know Nothings, for the purpose of buying enough votes, by paying taxes, to carry elections, got the odious law through our Legis ature which disfranchiaes every man who don't pay his tithe twenty days before the city election et every Democrat disappoint the originators of his infamous law by paying his poll tax at once. The tax is only \$1 50 per head, and if any man is 100 poor to pay it, let him call on his neighbor for help. There are hundreds of generons Demcrats in this city who will not permit a poor man o be disfranchised because he can't pay \$1 50, as do his rulers, whom the Journal calls the elite of

A NUISANCE.-We respectfully call the attention of Superintendent Gill to the fact that Midway Station, on the Lou. and Lex. Railroad, is at present a nuisance to travelers. That town affords as recious a set of blackguards as could be muster ed at the Five Points, in New York city. These roung rowdies are always at the depot upon the arrival of the trains. They are not only in the way of passengers, but they stare into the car windows, and keep up a loud talking, in which sulgarity and profanity each strive for the ascenleney. Is there no way of abating this nuisance? It the ticket agent at that station cannot do it, he s incompetent, and should give place to another who can. It is intolerable that ladies should be subjected to such a tirade of slang as is invariably heard at the Midway station. In all other respects, this road is faultless, and we feel assured that Mr. Gill will speedily remedy this fault, and thank us for calling his attention to it.

He wrote an appoley: and when this note was translated to he bewitching Marie, and she was assured of its incerity, she laughed immoderately, and said she and supposed perhaps kissing a pretty girl (here she looked very archly,) on inceting her, was an American custom. It had frightened her at first, out now she did not care, for, said she, in her attractive English-Tuscau: "Ze keess deed me no urm-indeed it was not so dees-vat you say eef is? - dees-a-grable."

POLICE COURT.

GEURGE W. JOHNSTON, JUDGE. MONDAY, February 25. DRUNG AND DISORDERLY .- Wm. Kaler was the first subject for the consideration of his Honor, and npon the charge named. Although a small man, he was making as much noise as a half dozen men—was very drank and noisy, and, naturally enough, fell into the hands of the police. The Judge said he had no right to get drunk on Sun-day. \$100 bail for two months. ASSAULT.—Wm. Donahoe was presented for

DRUNK AND VACEANCY.—James Atwood, the husband of Sanh. band of Sarah, was in arrest for drunkenness and vagrancy. Helives in an old ricketyhouse up town,

He is a horse-doctor, and there is nothing against the Doctor but drunkenness. His fingers were sawed off lately by a circular saw, and as he is a crip-ple, couldn't do much service at the work-house. But he got drank on Sunday, and the Judge made

PROCE WARRANT.—The case of Wim. McCoy vs. Places Warrant.—The case of Win. McCoy vs. Hildebrand, on a peace warrant, was investigated. The men had some difficulty about some work the former was to do for the latter, and McCoy called the defendant a "pittful am of a bitch." He afterwards begged parcoz for the of fensive language, and left the premises of Hildebrand, refusing to do the work. Some weeks atterwards the defendant came after McCoy, and induced him to come to do the work. While he was at it, Hildebrand commenced cursing and abusing at it, Hildebrand commenced cursing and abusing him by words, and threatning to have revenge — His object in getting out the peace warrant was to be protected while he was doing the work for the defendant. A witness stated that he thought Mildebrand was drinking who he made the threat, else he would not have done so. The at-torney for defendant though! his chent was justiflable because McCov wasn't doing the wirk ight and the latter had heaved the bret brock t by

calling his client a "Dutch son of a b.tch," who retorted McCoy was an "Irish son of a b.tch." The Judge didn't think Hildebrand had any right to threaten peaceful men, and that was the quetion to decule; he, therefore, required lis debrand's own bond in \$2 %, that he would't whip McC y for ANOTHER PRACE WARRANT.—Alex Peje had John Hogan up for an assault on him. MARCH 1, 1859.

Reading Matter on Every Page. Saying One Thing, and Doing Another.

In the grand pow-wow in this city on the 22d, the Sam-Nicholasites said they would not admit Abolitionists into their ranks. They meant, by this declaration, that they would admit Abelitionists. To assert the contrary of what they are and what they intend, is a part of their policy. We all remember how they denied being Know Nothings when the party was organized. Some of them went so far as to swear they did not belong to the order, and none of the early apostles of the faith were willing to confess. They said no, when they meant yes.

The same policy guided them in the pow-wow when they said they would not receive the help of Abolitionists. All know that they want this help, and that they intend to get it if they can. Their denial of the intent, is simply their peculiar way of asserting it. When they say down with the Abolitionists, they mean up with them, as every sensible man must know.

Those who have watched the movements of certain leading Know Nothings, Do-Nothings or Sam-Nicholasites in this region, cannot have failed to discover that they take the side of the Black Republicans whenever they can. As they dwell in a Southern State, they don't dare to come out boldly for the Free-Nigger party, but they take good care to approve of things done by the Free-Niggerites whenever they cau, under the mask of discussing a question which seems to have two sides. They let but few opportunities of saying a good word for their Northern coufederates pass unimproved.

For instance, the House of Representatives re cently appointed a committee, consisting of five members of Congress, to look into and report upon certain frauds alleged to have been committed in the conduct of our navy yards. The committee consisted of two Democrats, two Black Republicans, and one Know Nothing, The two Democrats and the one Know Nothing agreed upon a report and submitted it to Congress. In that report were the following resolutions in vindication of the President, Secretary of the Navy, etc.: 1st. That the testimony taken in the investiga-

alyn uavy yard, and require the interpos gislative reform. That it is due to just leclare that these abuses have been slowly and gradually growing up during a long course of rears, and that no particular administration should have the entire blame thereof. 2d. That the coal agency has for some time east been in the hands of persons wholly inefficient and grossly incompetent, and that reform is needed in the regulations which exist on the abject, and that there is no proof which trace

any knowledge of such inefficiency and incompe

tion proves the existence of glaring abuses in the

tener to the responsible authorities in Washing approve on the part of any othicer of the Government any favors to contractors, yet if the Secre-ary of the Navy did contemplate any favor to swift, he did not design to bestow it to the detriment of the Gover ment, but that in all he did in

4th. That in t'e letting of contracts for the con struction of steam machinery for the use of the navy during the present administration, nothing has been shown which calls for the interposition on the Congress of the United States; but it is manifest the present head of the naval depart-ment has desplayed a very laudable zeal to secure the greatest amount of speed and efficiency at-

But in spite of this majority report, made by a espectable Northern Democrat, W. S. Groesbeck, of Ohio, a Southern Democrat, Thos. S. Bocock of Va., and a Southern Know Nothing, Charles Ready, of Tenn., the editor of the Louisville Journal takes up and adopts the minority report made by those dirty Black Republicans-John Sherman, of Ohio, and David Ritchie, of Pennsylvania. These two Abolitionists, in their vindictiveness, drew up a slanderous minority report, differing widely from the one last named, and the editor of the Journal thinks the libelers are right, He has been adopting it, and rejoicing over it, for some days; and of course he will cling to it so long as Sherman and Ritchie are Free-Niggerites, opposed to the administration of President Buch-

The Do-Nothings.

The motley gathering of broken down politicians that lately assembled in our city seemed to be at a loss for a name by which to designate their nascent party. If they want a name that shall fully and in two words express the meaning of their nine commandments, they cannot select more appropriate name than that of do nothings.

They won't do this, and they won't permit that; they are in favor of honesty as a general thing, but they are particularly careful to avoid specifi-

They commit themselves to no measure, they avow no principle. Even the Pope is ignored, and the scattered and mourning disciples of the departed Sam have to put up with the 8th commandment, "Thou shalt not import foreign felons and paupers." We suppose this is intended as a FAMILY SEWING MACHINES kind of protective tariff on home felony and pau perism.

By the way, what do the committee mean by urging the abandonment of "unprofitable disputes?" Is that another back-handed blow at the orethren? Unprofitable enough their disputes have been, that is certain, but who are these profitable servants that assume to lecture them so roundly? Are they all prepared with certificates to prove that they were never "sworn in?"

Poor Sam! his defunct carcass doubtless de serves all the kicks it gets, but if his ghost had been present at Mozart Hall when the nine commandments were read, surely it would have exclaimed; "d tu brute!"

The Journal says that Bell will accept the nomination for Governor tendered him by the Opposition pow-wow. This is prima facts evidence that he will not accept, but as he is silly enough to sympathize with the Sam-Nicholasite movement, he may be fool enough to head the ticket. We wish he would speak out and be done with the matter, for we want to begin on the platform which he is to stand on. We have much to say about that monstrous creation, but don't want to begin until we know where to place Bell. We can't, however, wait on him much longer.

It has been suggested that when Nicholas, Bullock, Robertson, Harlan, Davis, and others, whom the Journal calls the elite of Kentucky, get ready to come down to a level with the people, they shall send for greasy Bob Letcher, and rub well against him before they begin the down. ward slide. The contact, it is thought, would be

equal to a sosp pole. Brother Bullock has not been much seen ce he returned thanks to his God in the Opposition pow-wow, in this city, on the 22d. It is thought by some that he is in his closet, not engaged in prayer, but practicing the most approved method of coming down to a level with the people. We hope to announce his experience very soon.

Party is dead .- Louisville Journal. Well, buy mourning. It's your funeral. The Sam-Nicholasite Reformation.

The Know Nothing theory of reform seems to Crawford carried the day for Mayor, and beat badly as either of them could beat him making out a report. Elliott cleaned out Casseday and the mighty man known far and near as Stout, without the least trouble, for City Attorney, and every new man that came in contact with an ld hunker was slaughtered without mercy. Such is the beginning of the reformation the Opposiionists have inaugurated. We know not where it will end, but as it seems to be in accordance with the Sam-Nicholas programme, it will not probably end very popular.

March. divisions of the year, has come upon us. As it is the beginning of spring, the name, derived from Mars, is very inappropriate, unless the winds that do howl at this season resemble the roar of the old war god, which, according to Homer, was as loud as teu thousand men. Among the early Romans, March was the beginning of the year, and it should begin it now, so as to have the new year ushered in by green fields and blushing flowers, instead of snow-clad lands and ice-bound waters. Numa Pompilius added January and February to the year, not to make it longer, but to fi.l up a gap that was usually frozen over. We hope that March will march right through his thirty-one days, breathing warm breath upon a blooming earth, filled with happy people, beneath a genla

The prominent men in this new noparty party straddled every hobby which gave romise of office-which has appeared since the days of Andrew Jackson-and rode it to death .-They are tatal to a party. They are afraid to organize a party. They know the people would shun a party with these old jockies up as riders. They killed the Whig party very dead. They then cobbled up a concern and called it Sam. As long as they kept Sam in the dark, and concealed his atrocious principles, they got along very well. But the Philadelphia Convention indis creetly removed the ban of secresy. When the veil was lifted, these same old political tinkers were discovered on their knees swearing that the Pope was an awful fellow, and that they were just in time to save the country. As soon as the people saw Sam, they dropped him like a hot potatoe. Having tried on and disgraced all known party

"Party is dead," is it? We don't blame party .-Death was the only relief that it could find from Sam, Nicholas & Co. They would kill a ghost. DUNCAN INSULTED AGAIN .- The Opposition pow wow in this city insulted Grand Secretary Duncan by not making him its leading secretary. Aspirants for the White House-The Hon. James An article in the Cincinnati Enquirer of the 27th inst., speaks of Presidential aspirants as be ing without number. It singles out the Hon, James Guthrie, however, as the most formidable to the small fry. We make the following extract from the paper in question, and assure all whom it concerns that Guthrie is the man

Every body, both great and small, in Congress and out of Congress, are dreadfully exorcised now in making the uext President. Every Democrat of past or present Senatorial renown, mentioned, until the number has become so gree that we must call them legion, while their interests are so clashing as to defeat almost every sou of them, and call into the field some true and faithful follower of the party, whose character, both public and private, is above reproach.

The conservative and solid men of the party, remembering our success in 1844 and 1852, under

ircumstances similar to those which will sur round us at Charleston, are looking round for nuch a man. In this connection, James Guthrie, of Kentucky, is much spoken of, and there can be no doubt that in his name there is much strength. For the complete Cure of Couche, Colds, Asthma, Bronchitis, Influenza, Pains in the Side AND BREAST, SPITTING OF BLOOD, AND CONSUMPTION,

Is rapidly advancing in the estimation of the public. It is no empirical neatrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe of an experienced and talented physi-cian, and has proved itself to be the greatest remedy for all diseases of the Lungs ever discovered; and wherever it has been introduced it has made cures which are perfectly astonishing. It is bound to supersede every other Congh Medicine before the public. Testimonials are daily being sent into the proprietor, of cures effected even after physicians had abandoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year of Consumption, or some other disease of the Lungs! Because they neglect the sure forerunger—a "single cold." its sure forerunuer - a " simple cold "which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Compound Pectoral of Wild Cherry." The main landing yesterday was at the Fultz wharf, from Third to First streets, where there were nine boats loading and unloading.—
The wharf space was very narrow, scarce twenty feet at one point, and the services of the police were called into use to regulate the draymen, and prevent confusion. Chief Ray with a posse was on hand, and by a little lawful exertion kept the draymen, cartmen, hackmen, and others going in and out on a bee-line, with no stopping or turnand out on a bee-line, with no stopping or turn-ing round to make confusion. The Second-street bridge was above water, though pretty well Capt. Dillon, the wharf master, had a gang of

THE D. F. KENNER—THE NEW COAST PACKET.

—Capt. Cotton has named his new packet for the
New Orleans and coast trade, the D. F. Kenner, in honor of Duncan F. Kenner, Esq., of Louisiana. He is one of the best men in the State, noble, generons, and public spirited, and we are glad his name is bestowed upon the boat. She couldn't have a hetter, and like her namesake, we predict she will always take the front rank in all good qualities, whether as to speed, durability, beanty, usefulness, and accommodation. We be-lieve her to be the best, and the fastest, as well as the most complete steamboat ever built upon

the Western waters.

Capt. Cotton has already sent some of his officers up from New Orleans to go on the new boat, including the mate, who arrived yesterday. It is expected that the D. F. Kenner will be ready to start South on the 15th of the present month.

Cannon to withdraw from the trade, and he telegraphed here to the parties who were building his new boat to stop work and throw up their contracts. The material for the hull had been got out, we believe, and we know that Meclistan & Co., with their usual energy, had a good deal of the cahin work under way. This will be a heavy loss to them, but of course Capt. Cannon will pay all damages.
